

Avalanche Security Day

The key to exploring off-piste with confidence

Read the mountain, understand its secrets, and explore safely

Step into the mountains with assurance and style. Our Avalanche Security Day is designed for discerning skiers and snowboarders who want to enjoy off-piste adventures safely, with expert guidance and personalized instruction. With our exclusif partner ARVA, you will learn how to manage on the best way your safety equipment and enjoy fully your off piste experience.

In a small group of just a few participants, you will:

Learn essential avalanche safety skills, including beacon searches, companion rescue, and terrain assessment

Understand snow conditions and decision-making for safe off-piste routes

Gain hands-on experience with professional ARVA safety equipment

Ski the breathtaking Tarentaise Valley, surrounded by pristine alpine landscapes

Why join this experience?

Every off-piste adventure carries risks. This day equips you with the knowledge, confidence, and practical skills to navigate the mountains on the most safely way, while still enjoying the thrill of back country day.

Details:

Duration: Full day

Group size: Small and personalized (1-6 people)

Equipment: beacon, probe, shovel from ARVA and Avalanche backpack REACTOR

Location: Tarentaise Valley

Book your day with Tarentaise Tours and turn your mountain adventure into a safe, unforgettable experience.

Price:

Group of 1 to 6 people: €700

The Program

step 1 : 9:00 AM

Meet your mountain guide at the designated starting point for a briefing on the Avalanche Safety Day. Receive professional ARVA equipment: beacon (DVA), shovel, and probe.

Practical introduction to essential avalanche safety techniques: victim search, companion rescue, and proper use of ARVA equipment. Begin exercises on a secure training area.

step 2 : 10:30 AM

Terrain observation and analysis: your guide teaches you how to assess snow conditions and risks before venturing off-piste. Practice through real-life simulations on the terrain.

step 3 : 12:00 PM

Lunch break (provided by the participant or included picnic, depending on the program) and discussion of best practices and feedback from morning exercises.

step 4 : 1:00 PM

Advanced exercises and scenarios: group victim search, real-time decision making, rescue techniques, and communication skills.

step 5 : 3:30 PM

Final off-piste session guided by your mountain expert. Apply all skills learned while safely exploring the mountain.

step 6 : 4:30 PM

Return to the starting point, debrief, and receive recommendations for your future off-piste adventures. End of Avalanche Safety Day.
